## ***Advice***

The stickers should not be placed where the physical contact may damage them. You are advised to print the stickers on photographic adhesive paper (it is more expensive than the normal paper but a high-quality will be obtained and the damage of the stickers will be delayed).

*Thanks to **MindTouch** for **donating** all the space and the bandwidth we need for the book files.*

## ***MIT License***

Copyright 2006, Javier A. Albusac Jiménez

Permission is hereby granted, free of charge, to any person obtaining a copy of this book and associated files, to deal in the book without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the book, and to permit persons to whom the book is furnished to do so, subject to the following conditions:

The above copyright notice and this permission notice shall be included in all copies or different versions of the book and inside images.

### ***Contributors (volume II)***

Niksavel, Devil505, Hervé Widmer, Phred, Tuquito Project Members.

## ***How to participate?***

- 1.- You can send your sticker/s to [stickers@pikao.org](mailto:stickers@pikao.org)
- 2.- It would be interesting to add text related to sticker/s (a few history and important information). You can send us text to [stickers@pikao.org](mailto:stickers@pikao.org)

## ***Where to buy high quality Linux stickers?***

[www.it2l.com](http://www.it2l.com)

Goodies GNU/Linux et logiciels libres

[www.it2l.com](http://www.it2l.com)

- T-Shirts
- Stickers
- Portes Clefs
- Tapis de souris

## ***What is Free Software?***

“Free software” is a matter of liberty, not price. To understand the concept, you should think of “free” as in “free speech”, not as in “free beer”.

Free software is a matter of the users' freedom to run, copy, distribute, study, change and improve the software. More precisely, it refers to four kinds of freedom, for the users of the software:

- The freedom to run the program, for any purpose (freedom 0).
- The freedom to study how the program works, and adapt it to your needs (freedom 1). Access to the source code is a precondition for this.
- The freedom to redistribute copies so you can help your neighbor (freedom 2).
- The freedom to improve the program, and release your improvements to the public, so that the whole community benefits (freedom 3). Access to the source code is a precondition for this.
